The Bureau of Land Management's Utah state office announced that it will defer all of the lease parcels in southeastern Utah's redrock country that it had proposed to be offered for oil and gas lease sales. The deferred parcels were scheduled for competitive bidding in March 2021, but the decision to defer them was made following the announcement. However, we were disappointed to hear of this decision, which is linked below. While the White House did not indicate any plans to offer these lands for lease, we will continue to monitor the situation and take action as appropriate.

FURTHER ACTION NEEDED: Oil and Gas Lease Sales

The Bureau of Land Management (BLM) announced its decision to temporarily defer the lease parcels in southeastern Utah's redrock country that it had proposed to be offered for oil and gas lease sales. The deferred parcels were scheduled for competitive bidding in March 2021, but the decision to defer them was made following the announcement. However, we were disappointed to hear of this decision, which is linked below. While the White House did not indicate any plans to offer these lands for lease, we will continue to monitor the situation and take action as appropriate.

The VP and Parks

John Pendley's departure as Acting Secretary of the Interior, which was announced in late August, continues in an acting capacity. We were disappointed to hear of this decision, which is linked below. While the White House did not indicate any plans to offer these lands for lease, we will continue to monitor the situation and take action as appropriate.

The Great American Outdoors Act will help to address the crippling damage to our national parks and public lands for years to come. Coalition Chair Phil Francis said in a statement, "It is fitting that a great coin be turned in the 21st century and that the national parks be celebrated by the American people. These lands are the foundation of our American identity and should be protected and preserved for future generations. We are grateful for the efforts of the Congress and the Administration to make this happen."

The Great American Outdoors Act was signed into law on August 10, 2020. It provides $9.5 billion over five years to fund the Land and Water Conservation Fund (LWCF) and the National Park Service Centennial Commission. The Act also extends LWCF until 2024 and the Centennial Commission through 2026.
