The Coalition continues to oppose oil and gas lease sales, particularly those on the New Mexico portion of the Greater Chaco Area. We also joined our partners in submitting comments emphasizing that while we support the Basin and Range Strategic Plan, we disagree with adding a seasonal management area versus a habitat of critical species protection on lands where livestock grazing continues. Read the whole letter and comments below.

Finally, we signed-on to a letter sent to the Department of Agriculture and the US Forest Service’s proposal to add a new and extensive definition of “habitat” to the Endangered Species Act’s implementing regulations. The Coalition believes that the proposed changes would undermine the Endangered Species Act’s primary purpose of protecting species and their ecosystems. The coalition’s letter adding our comments is linked below.

We also joined our partners in submitting comments on the Department of Interior’s proposal to add a new, unnecessary definition of “habitat” to the Endangered Species Act’s implementing regulations. The Coalition believes that the proposed changes would undermine the Endangered Species Act’s primary purpose of protecting species and their ecosystems. The coalition’s letter adding our comments is linked below.

We also supported the NPS Concessions Regulation Changes and signed on to a letter objecting to the Federal Energy Regulatory Commission’s (FERC) proposed approval of the XpressWest High-Speed Rail Project. That project would put the nation’s only animal migration and critical species habitat, it puts the irreplaceable natural and cultural resources at Carlsbad Caverns itself and the surrounding area at risk. Read his full statement in support of FERC’s decision below.

California officials requesting that they make changes to the Endangered Species Act’s implementing regulations, the proposed changes to the NPS Concessions Regulation Changes, and the Coalition’s efforts to amend current law to protect our national parks. Read the whole letter and the coalition’s letter adding our comments is linked below.

We also signed on to a letter sent to the Senate Environment and Public Works Committee to request regarding the closing of portions of the National Mall. The coalition’s letter adding our comments is linked below.

In this excellent look at the future of state parks by Alliance for American Homes, Jobs, and Parks, we can see the impacts of the COVID-19 pandemic. Click the box below to read the letter.

The Coalition has been working closely with the Association of National Park Rangers (ANPR) on the proposed changes to the National Park Service’s (NPS) Concessions Regulations. Several Coalition members have commented on the proposal with the NPS. Read the whole letter and comments below.

Coalition Executive Council Member Jim Northup testified before the House Natural Resources Committee on September 17 to allow for filming of a Republican Campaign advertisement featuring Vice President Mike Pence. The response is linked below.

We joined over 60 other organizations and member Sheridan Steele submitted an oped published in the National Geographic about work in the National Park Service, highlighting accounts of lesser-known figures serving our national parks. Humorous and poignant, we know it’ll strike a chord with all of our Coalition members who are testing their staff and resources. Read the whole letter and comments below.

We joined our partners in submitting comments emphasizing that while we support the Basin and Range Strategic Plan, we disagree with adding a seasonal management area versus a habitat of critical species protection on lands where livestock grazing continues. Read the whole letter and comments below.

The Coalition also joined numerous other organizations in signing a letter to the Department of Agriculture and the US Forest Service’s proposal to add a new and extensive definition of “habitat” to the Endangered Species Act’s implementing regulations. Several Coalition members have commented on the proposal with the NPS. The coalition’s letter adding our comments is linked below.
